

Proceso de desarrollo de software: *Agile- Task Board*

***CE-4101
Especificación y diseño
de software***

Task Board

- Elemento informativo que permite que todo el equipo esté informado en todo momento del estado de la iteración
- Los elementos del tablero pueden cambiar para ser mas detallados si el equipo de trabajo lo acuerda
- Es importante que el tablero esté visible en todo momento para todo el equipo de trabajo

Task Board

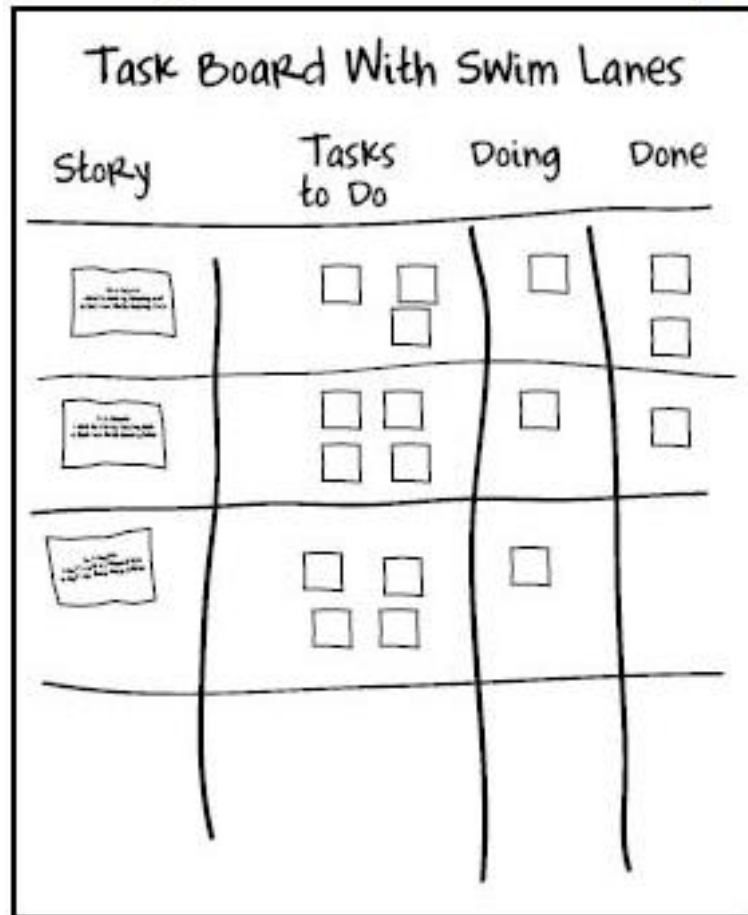

[The Elements of Scrum]

- Una de las formas más simple es el formato a tres columnas:

- To Do
- Doing
- Done

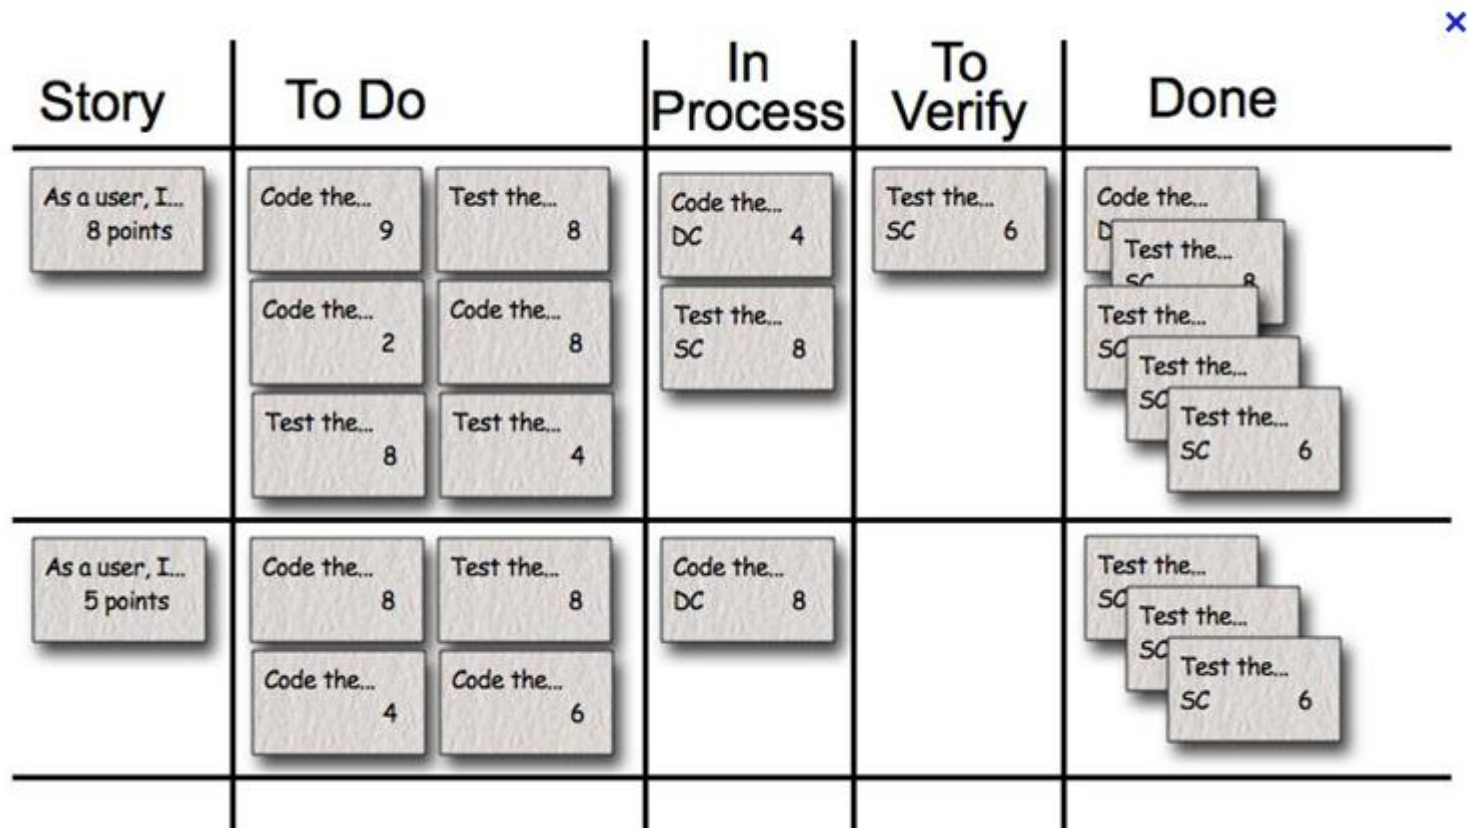

Task Board

[The Elements of Scrum]

- Una vez que se construye el backlog sprint en el planeamiento de la iteración se detallan las tareas necesarias y se colocan en cartas
- Cuando se completan las tareas se tiene el placer de mover físicamente las tarjetas

Task Board

[The Elements of Scrum]

Task Board

	Todo	In Progress	Done! ☺
Pack Boxes	<ul style="list-style-type: none"> Box 1: Books 	<ul style="list-style-type: none"> Box 2: Clothes Box 3: Kitchen 	<ul style="list-style-type: none"> Box 4: Bed Box 5: Bathroom Box 6: Living Room Box 7: Hallway Box 8: Garage
Change Address	<ul style="list-style-type: none"> Call Post Office Fill out form Get stamp Post letter 		
Hire Movers	<ul style="list-style-type: none"> Call moving company Get quote Book date 		
Buy Stuff	<ul style="list-style-type: none"> Washing machine Refrigerator Stove Compass SPK TV 		
Paint Girls Bedroom	<ul style="list-style-type: none"> Buy paint Get roller Paint room Buy furniture

Backlog Defined In-Progress Completed Accepted Blocked

La definición de “Completado”

- Cada equipo de trabajo debe tomar un tiempo al inicio del proyecto y establecer una definición común de cuando algo puede ser considerado como “Completado:
- Elementos comunes de una definición de listo:
 - Revisión de código completada
 - Revisión de diseño completada
 - Refactoring completado
 - Pruebas de rendimientos completado
 - Pruebas unitarias completadas

Definition of Done	
<input type="checkbox"/>	Design reviewed
<input type="checkbox"/>	Code completed
<input type="checkbox"/>	Code refactored
<input type="checkbox"/>	Code in standard format
<input type="checkbox"/>	Code is commented
<input type="checkbox"/>	Code checked in
<input type="checkbox"/>	Code inspected
<input type="checkbox"/>	End-user documentation updated
<input type="checkbox"/>	Tested
<input type="checkbox"/>	Unit tested
<input type="checkbox"/>	Integration tested
<input type="checkbox"/>	Regression tested
<input type="checkbox"/>	Platform tested
<input type="checkbox"/>	Language tested
<input type="checkbox"/>	Zero known defects
<input type="checkbox"/>	Acceptance tested
<input type="checkbox"/>	Live on production servers
